DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Title:

The title has been replaced with "Image projection system with multiple arc lamps and flyseye lens array light homogenizer directing polychromatic light on a liquid crystal display".

End of examiner's amendment.

Allowable Subject Matter

2. Claims 61-76 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or fairly suggest the device of claims 61 or 62, in particular the limitation that the projection apparatus with the LCD panel has multiple arc lamps and multiple fold mirrors in the form of a pinwheel-shaped mirror configuration so

that the bundle of light rays is substantially collimated, combined with a flysye lens array light homogenizer system. Claims 61 and 62 are therefore allowed, as are dependent claims 63-70 and 71-76.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
